

*With The Release Of His New Instructor Qualification Series,
Jerry Peterson Announces
The Most Devastatingly Effective Fighting System Ever Created...*

“Learn Knife & Gun Fighting Techniques Until Now Taught Exclusively To U.S. Navy SEALS”

In my official U.S. Navy SEAL SCARS Combat Fighting Course (Naval Special Warfare Course #K-431-0096), I teach the SEALS how to defeat anyone attacking them with a knife, gun or club — even if that SEAL has no weapon of his own!

Now, after 2 long years of painstaking research through my SCARS military archives, I’ve taken hundreds of military lessons and transformed them into what has been called “the most devastatingly effective fighting system ever offered”.

In my *Instructor Qualification Series* fighting system I explicitly demonstrate techniques which have never before been seen outside the tightly guarded confines of the U.S. Naval Special Warfare combat fighting compound (SEAL advanced training headquarters). Since the SEALS began using my scientific system more than 7 years ago they have been recognized as the most potent fighting force on the face of this planet.

And now, in my new *SCAR-HCS WEAPONS PACKAGE*, containing the first two sections released from this series, you will see:

- 1. Knife, gun and club disarming techniques which produced initial reactions like, “... no wonder SEALS have never lost in hand-to-weapon combat ... now I understand why Jerry guarantees these techniques 100% of the time ... this man has obviously taken weapons out of enemy hands!”**
- 2. The demonstration of these techniques using an expensive but incredibly effective 3 camera setup including a remarkable new overhead shot. Techniques previously difficult to illustrate using two camera angles, now become crystal clear.**
- 3. Techniques so powerfully effective, so natural, yet so easy to learn you can use them the same day you get the course! Nothing is held back in preparing you for today’s extreme violence including never-before-seen potentially life-taking and actual killing sequences.**

After studying these videos, there won’t be a man on earth who can show you another knife, gun or impact weapon fighting technique more advanced or more effective than what you will know.

Bold statements for sure. Do they sound too good to be true? Then read on, please. I promise you won’t be disappointed.

Dear Friend,

Recently I released the new hand-to-weapon sections of my long-awaited **Instructor Qualification Series** fighting system.

Covering guns, knives and other sharp bladed instruments plus all types of clubs, these two ***Instructor Qualification Series*** courses come

straight from the SCARS military archives (I'll explain later).

In them, you learn how to disarm anyone attacking you with these weapons and how to properly use them yourself. You learn every technique needed to seriously disable and, if necessary, kill someone attacking you with a weapon -- techniques required to protect you and your loved ones in today's ultra-violent world.

And you learn all this quickly and easily, regardless of your athletic ability.

While I know this revolutionary system gives you your only real chance of surviving the violence on our streets today, I also understand that word-of-mouth testimonials from satisfied users like you are the best way for me to sell this powerful system.

So I'm prepared to almost shamelessly bribe you to preview this material by offering a short-fused, one-time only, **Introductory Special Offer**.

Before I describe what you'll receive in the **SCAR-HCS WEAPONS PACKAGE**, let me explain why you must own this system.

**If You'd Had The Opportunity To Purchase My
Hostile Control Systems Non-lethal Fighting Program
You'd Already Know
Far More Than The Average Fighter.**

**Yet In Today's Violent World...
You'd Still Need More!**

If you'd spent even minimal time with my **HCS** non-lethal fighting system, you'd understand how quick and easy it is to learn my techniques (Later I'll show you how you can get this \$99.00 program at no additional cost).

Anyway, you'd have **proven** to yourself these techniques do not require athleticism, physical conditioning or speed.

And even if you'd only practiced a short time with the techniques, you'd now instantly react in a hostile situation -- without even thinking about it.

You'd react quickly and decisively to protect yourself, your loved ones or your friends from just about any vicious situation you might find yourself in -- probably 95% of what you'd ever see out there on the streets today.

Unfortunately...even if you knew all this, it's not enough!

Because today all you hear about is the **other 5%**.

And what makes this 'other 5%' so terrifying is the fact that in almost every case...

You're Going To Be Facing WEAPONS!

I don't need to graphically detail just how bad it is on the streets today. Everyone else has done a pretty good job of that.

And what they're telling you is true.

How drug-induced violence is making logic and rational thinking

(please go to next page)

useless. How vicious, senseless murders, rapes, and carjackings are happening to anyone, anywhere, anytime. How yesterday's single person assault has mutated into today's multi-thug, weapon-oriented, don't-give-a-damn-if-you-die mayhem.

Problem is, these same folks are trying to teach you to stay alive in this violence by teaching you to '**defend**' yourself.

And that's the worst mistake you can make.

See, in today's weapon-oriented violence...

**Learn To 'Defend' Yourself,
And You've Just Learned How To Get Yourself Killed**

Put your hand and arm out to stop a knife using techniques I've seen in these programs, and you're guaranteed serious, and possibly life-threatening slash wounds. Try to take a gun away that's been shoved in your back and you'll likely not live to tell about it.

One 'wanna-be expert' even says that in a knife fight you WILL get seriously hurt. All you can hope to do is minimize the damage.

What bullshit! It's just plain ignorance.

It's yesterday's techniques. Yesterday's technology. Yesterday's results.

I know this isn't what you want.

The SEALS sure didn't.

That's why they rejected that crap and chose my system -- a system built on principles guaranteed to control, defeat, and if necessary, destroy any assailant in any situation **WITHOUT GETTING YOU INJURED**.

They now use 21st century techniques unlike anything you've ever seen. And now you can learn these same techniques in my ...

Instructor Qualification Series
SCAR-HCS WEAPONS PACKAGE

With my revolutionary ***Instructor Qualification Series*** you get the most advanced fighting techniques on earth.

And just as I do with the SEALS, I quickly incorporate weapons into your training. I don't string you along like others.

You see, I've found if you put a gun, a knife or a club in the hands of even the most highly skilled fighters, they often forget everything they know about fighting. Frequently they freeze. That's because they've been trained to use different techniques when fighting with a weapon. They hesitate while their mind tries to tell their body "It's a weapon. Change fighting styles."

But hesitate in a life-threatening situation and you're dead. And facing a knife or a gun is often just that -- life or death. There's no room for mistakes.

That's why I teach you to use the same movements whether you're

(please go to next page)

fighting with a weapon or without. If your program doesn't work this way -- then it isn't a system, and it won't work 100% of the time!

**If Others Get Injured Or Killed,
It Doesn't Matter That You Won**

There's another reason facing a weapon often causes you to freeze -- even if you're a great fighter.

It's this.

You may be the most fearless fighter in the world, but if your wife, child or a friend is close at hand, everything changes.

Out of 'fear' for their safety (not yours) you hesitate. Or, perhaps in destroying your assailant you let a weapon injure or kill these loved ones.

With my system I show you how to avoid these situations. Here's what I mean.

.

Robert Scannell is a California stock broker who understands **HCS** concepts. Robert had spent a short time learning the same concepts shown in these weapons fighting video tapes, when one day he had a gun thrust into his face while sitting in his car.

Now understand, Robert is a fearless man. But his wife and child were sitting right beside him.

"Before training with Jerry Peterson, fear of what this carjacking scumbag might do to my family would have significantly affected how I reacted to him. But not any more.

"Without getting out of my car, I used a simple move to quickly hyper-extend this jerk's elbow, actually pulling him into the car window, snapping his wrist, and knocking him out.

"All this with no hesitation, and more importantly, **NEVER putting my family in danger**. That's Jerry Peterson's system."

.

That's why my **SCAR-HCS WEAPONS PACKAGE** consists of the most intensive knife, gun and club fighting instruction ever seen on video.

What you'll see is the same weapons training sequences used in teaching the more than 200 SEAL **SCARS-CFC** (combat fighting course) instructors who now teach Navy SEALs prior to deployment.

Now, in case you're thinking "Sure, but I'll bet this is just watered-down SEAL training", let me again explain the difference between instruction the SEALs get and what you receive on these incredible video tapes.

With the release of the **Instructor Qualification Series**, and specifically this **SCAR-HCS WEAPONS PACKAGE**, you will, for the first time, receive the same level of knowledge as a U.S. Navy SEAL

(please go to next page)

SCARS-CFC trainer.

Understand, these guys are not just SEALs trained in **SCARS-CFC**, these are the seasoned, veteran elite who actually train other SEALs and the rest of the Special Operations community!

The only difference between what you'll learn and what these trainers learn is that **SCARS-CFC** training includes mission-specific training while yours doesn't.

You don't need it.

These special tactics are never divulged to anyone. It's proprietary knowledge, often 'unit-specific', right down to an individual SEAL team.

As far as your needs, you will be every bit as competent as these SEAL trainers. You will learn the same techniques they learn. In fact, when it comes to hand-to-hand or hand-to-weapon combat, we make you more deadly, since you can't count on having weapons and equally-skilled, combat-trained friends close at hand.

What You'll Learn

Here's just a sampling of what you'll learn in the **SCAR-HCS WEAPONS PACKAGE**:

- The difference between being a 'knife fighter' and someone who knows how to 'fight with a knife' ... and which one you must become! (*Clue: there are lots of knife fighters but few who know how to fight with a knife*).
- How to instantly know whether you should 'push' or 'pull' in any gun confrontation. (*One method is correct if you're attacked with a gun. The other will get you killed*).
- The one mistake you must avoid (yet EVERYONE makes) when facing a knife-wielding attacker ... *and why this mistake will always get you cut -- and possibly killed!*
- How you can easily avoid being stabbed with a knife or shot with a gun ... *even if you're surprised with both hands in your pockets!*
- The defensive move almost guaranteed to get you badly slashed in a knife attack. (*Sadly, unless you know my system, almost everyone tries this first!*).
- The critical element you must control if you are to defeat any assailant attacking you with a weapon.
- How to 'slow down' your opponent's movements so you can attack without getting injured.
- The 3 targets you must hit (any 1 will do) if your attacker is on drugs (or, if after using your weapon, he still keeps coming at you)!

Why A System This Effective

(please go to next page)

Is So Quick And Easy To Learn

You may feel this all sounds too good to be true. That any system this effective **MUST** require great athleticism and years of training.

But my system is different from every other because it requires
...

No Memorization, No Learning Of Unnatural Physical Movements!

There's no need. You'll use movements you've spent your entire life perfecting. For example:

Each day you reach out and grab things. It's a natural movement. Now, I'm going to teach you how to take that very same move and turn it into a devastating attack movement capable of seriously disabling any assailant.

Martial arts and other 'fighting' programs often ask you to execute moves which are not natural -- movements you don't use every day.

That's why you've got to practice these moves for months, even years, just to execute them correctly. Even then, stop practicing and they're quickly gone!

But with my system your mind NEVER needs to retrain your body to make this kind of unnatural, illogical movement!

More Of What's On These SCAR-HCS WEAPONS PACKAGE Video Tapes

The **SCAR-HCS WEAPONS PACKAGE** contains 4, full-length video tapes plus 2 valuable bonuses never offered together before (I'll describe these later). Here is more of what you'll find on these amazing tapes:

- As I explained earlier, **it's critical you understand potential life-taking and actual killing techniques.**

Most programs are afraid to show you these. I'm not.

Each video explicitly identifies these techniques by using a series of large, colored dots which are overlaid right onto the video tape.

On these tapes a yellow dot surrounded by a larger red circle appears whenever a potential life-taking or actual killing technique is shown.

Note: On other tapes in this series a yellow 'dot' indicates a potential life-taking technique while a red one means it's an actual killing technique. With weapon fighting, however, all dots are yellow and red combinations since a weapon can quickly turn a potential life-taking technique into an actual killing one.

These hand-to-weapon and weapon-to-weapon combat techniques take

(please go to next page)

you to the most extreme levels of fighting. All are designed to prepare you against an imminent threat to your life or the life of your friends and/or loved ones.

- **For the first time ever, 3 video cameras are used to show each technique from every angle imaginable.**

We show you both front and reverse angle camera shots, each in slow motion, then full speed, and finally with stop action.

What we've added to this series is a difficult (for our camera people) overhead shot clearly showing a dimension you've never seen before.

This is critically important for potential life-taking and actual killing techniques, where even a seemingly insignificant mis-execution can be critical.

And there's something else you gain with this new overhead shot.

It allows me additional time to explain subtle movements associated with each technique, and also to cover related topics -- elements a 2 camera shoot simply doesn't allow.

In short, not only do you get to see another view which very often shows movements partially hidden from standard front and reverse angle shots, you also 'learn' more about the entire technique.

This is why it's critically important you watch each video more than one time -- you'll be amazed at how much information you won't hear the first time through!

- **Others teach you to use different techniques when fighting with weapons versus fighting without them.**

But they are all **dead wrong!**

They have no scientific basis for what they're telling you. All it can and will do is get you killed.

Fighting is fighting, whether you or your assailant have a knife, a gun, or no weapon at all.

In several instances on these videos, I use a weapon with a technique we had practiced earlier without weapons. You'll notice the technique does not change whatsoever just because you put a weapon in your hands!

**We Train You Once In A Technique
And It Applies Universally ...**

With A Weapon Or Without!

You don't retrain yourself just because you have a knife in your hand. The techniques you learn apply to all fighting.

If you watch my **HCS** introductory hand-to-hand videos, you'll understand that if you now put a knife in your hand, that same

(please go to next page)

hand-to-hand motion works fabulously with the knife, and it works equally well with a gun or a club.

☐ **Here's a sampling of other weapon fighting and disarming information you'll learn:**

- The only 2 ways to hold your knife that work ... *100% of the time, in any fight.*
- How to instantly disable an attacker who shoves a knife or gun in your face ... *even if you aren't armed.*
- The difference between kinetic and static force ... *and which one you absolutely must use to defeat any attacker -- especially if he's bigger than you!*
- The ONE AND ONLY technique to use if **you** have a gun and your assailant tries to take it away from you. (*Use anything else and you may be seriously hurt or killed*).
- The critical difference between hand-to-hand and hand-to-weapon fighting ... *and why what everyone else is teaching is wrong.*
- Why you must focus on 1 of only 3 targets to successfully take that steel pipe your assailant is wildly swinging in front of your face. (*Surprise: none of them is the club!*).
- The first move that practically guarantees you'll destroy someone attacking you with a knife. (*It takes guts but only I teach this. Once you learn it, you become undefeatable*).
- The **single, critical** key to successful gun disarmament and control ... *and why you must instinctively comprehend this before you ever move.*
- How to avoid losing your knife or have it taken away.
- Why you must NEVER back up to avoid your attacker's knife slash ... *and what you must do instead.*
- Why 'body rotation' can be the secret to your staying alive in a knife or club attack ... *and why this works equally well if he attacks you with his fists!*
- The surprising reason why you must never watch the weapon your assailant is using to attack you!
- The approximate distance you must keep between you and your attacker in order to defeat him. (*This amazes everyone*).
- The 2 simple body movements which let you unleash mind-boggling force and power ... *and destroy much larger opponents.*
- Why you must never have a 'favorite' technique ... *even though practically every fighter not trained in my system does.*
- The single most important thing you must do to keep your

(please go to next page)

attacker from defending himself ... *and why you **can't** do this without understanding Autokinematic™ reactions.*

- An amazing demonstration of why my system works 100% of the time!
- Your opponent's 'fulcrum points' ... *and why they're key to whether you win or lose a knife fight.*
- Why 'slashing' is not an effective way for you to fight if you have a knife.

As part of the unique information shown in my **Firearm Disarmament** techniques, you'll especially notice:

- My '**field-of-fire**' grid. This demonstration technique has never been seen outside the U.S. military before. With each technique you'll see how careful we are to choose moves which DO NOT endanger the lives of those around us. It does no good whatsoever for you to survive using these techniques only to have a stray bullet kill the very loved ones you were trying to protect. You'll find this information nowhere else.
- Some people believe it's different with 'real' bullets. Well, as you watch the end of this video, the footage you'll see is that of real SEAL training. And yes, that sound you'll hear during one technique is a real gun going off. The gun was fired by one of the world's best marksmen who didn't believe someone could take his gun away without being injured. He was wrong! These techniques have all been perfected in real-world situations!

SCARS-CFC Expanded To ALL Branches Of Military Special Operations

The **SCARS** program, from which all these **SCAR-HCS WEAPONS PACKAGE** techniques originated, has now grown from one official **SCARS-CFC** course to a series of courses all officially certified and taught by Naval Special Warfare.

In addition, this training has expanded to include all 3 branches of the military and includes such elite Special Operations units as Rangers, Para-Commandos and Green Berets.

Most training now takes place at a new \$2.5 million military training facility predicated solely on the **SCARS** system. To be military certified in hand-to-hand and hand-to-weapon systems, you must go through our **SCARS** program.

We've also taken **SCARS** training into the field in Europe -- the only program ever taken to deployed SEAL platoons.

Why Combining Knowledge And Technique Is Critical For You Today

This course teaches you every gun, knife or club fighting

(please go to next page)

technique you'll ever need to know.

Yet I've continued stressing the importance of the knowledge you'll receive -- the understanding of why this all works.

And it's knowledge like this you must have to handle the viciousness of the 'other 5%' on the streets today.

I teach the SEALS their number one weapon is not a gun or knife or club. It's their mind. (Their second most important weapon: their body. Everything else, including weapons, is ancillary!)

No one else teaches this.

Yet without knowledge -- without understanding 'why' -- any fighter can be defeated.

That's why, in a one-on-one fight with a U.S. Navy SEAL (heaven forbid) ...

**The SEAL Will First And Foremost
Beat His Enemy With His Mind -- Not With His Weapon!**

I'm sorry if that blows away your mental image of all those fancy movie and TV fight scenes and stunts, and everything else you've seen or heard.

You see ... *the SEALS are undefeatable because of their knowledge of fighting learned from their **SCARS-CFC** training NOT because they know some secret fighting techniques you don't. And now you'll get this same knowledge from these **SCAR-HCS WEAPONS PACKAGE** video tapes.*

Special Introductory Offer

I charge a minimum \$1,250 an hour to consult with the military, international governments, groups and individuals from around the world with special security needs. Tuition for my professional **Instructor Qualification** training and licensing is \$20,000 per person.

At this rate it would cost you nearly \$5,000 to get the information contained in this **SCAR-HCS WEAPONS PACKAGE** if you could get into one of these groups (I teach a minimum of 10 people at one time).

But as I mentioned earlier in this letter, word-of-mouth testimonials from satisfied users like you (once you've proven to yourself everything I've tried to explain here) are the best way for me to sell this revolutionary system.

That's why I want you to have this **PACKAGE** today.

So I've created an **Introductory Special Offer** jammed with such a wealth of never-before-seen information that I'm confident you'll want to order it immediately.

But it's a **short-fused** opportunity which may not be repeated.

Here's the deal.

(please go to next page)

This **SCAR-HCS WEAPONS PACKAGE** contains the first two sections of my **Instructor Qualification Series** Fighting System.

Part I, the 3-tape **Edged & Impact Weapons** course sells for \$297.00. Part II, **Firearm Disarmament & Use** video sells for \$79.95. Together that's \$376.95. And once you've seen these videos you'll agree they're worth every penny and more.

As part of this **Introductory Special Offer**, however, you get all 4 video tapes for only \$297 -- the price of **Edged & Impact Weapons** alone!

But that's not all.

We currently sell the **Hostile Control Systems** 2-tape introductory course for \$99.00. We've sold more than 19,000 copies at this price -- with NO discount!

However, since I feel it is mandatory you understand all the information contained in **HCS** (all my courses build upon earlier techniques -- nothing you learn is ever 'wasted'), I'm going to include in this **SCAR-HCS WEAPONS PACKAGE** at no cost to you ...

Special Bonus #1:
The Complete HCS Introductory Program

That's right. The entire \$99.00 program.

HCS lays the foundation for everything covered in the **SCAR-HCS WEAPONS PACKAGE**. In effect, it 'pre-qualifies' you for the more advanced weapon techniques. That's why I feel it's crucial you have it now. Here's just some of what it includes:

- Two full-length video tapes, each featuring me and two of my **SCARS** combat instructors. These videos use live action footage, multiple camera angles, and slow motion replays to show you exactly how to correctly execute hand-to-hand techniques necessary to seriously disable an aggressor in various potentially life-threatening situations.

The videos cover *Autokinematic*[™] reactions and *Neural Offensive Linguistics*[™] in detail, together with strategies for getting the most from **HCS**, and much more.

- A companion manual packed with 34 detailed illustrations and supplementary information you must have to implement this system correctly. The manual explains each strike point on the human body, when to hit it, and its *Autokinematic*[™] reaction, plus body mechanics, body weapons, and more.

Please note: this manual is not a duplicate of what you see on the video tapes. Both the videos and the manual contain material critical to your understanding of **HCS**!

- Finally, you also get a special report I wrote called *The Streetfighter's Mindset -- Decision Points and Skill Tactics*.

In it I give you an inside look at what really happens in most

(please go to next page)

altercations, whether in a bar, a back alley, a busy street, or a fancy restaurant. You get a lifetime of 'street' knowledge and savvy. You'll never again be surprised by what happens in the real world.

This special report alone reveals information which could easily save your life. And as you'll find with all of my material, I never duplicate myself. Nothing in this special report is contained in the **HCS** video or manual.

**Six Video Tapes
For The Price Of Three!**

Your **SCAR-HCS WEAPONS PACKAGE** now looks like this:

- **Edged & Impact Weapons** (\$297.00)
- **Firearms Disarmament & Use** (\$79.95)
- **Hostile Control Systems** (\$99.00)

That's \$475.95 of real, what-we-sell-it-for-today revolutionary protection instruction all for only \$297! You've got to agree, that's an incredible price for this set.

Sure, it's still a lot of money. That's why this course isn't for everyone.

What you've got to do is ask yourself this question:

**"How much is it worth for me to unequivocally know
that I can save my life or the life of my loved ones
in a life-threatening attack?"**

You see, it costs no more to own this system than you'd pay for maybe three personal marital arts lessons; less than a few months of group instruction. And what would either of these give you? An introduction plus a few basic moves, maybe?

You'd need to spend thousands of dollars and years of your life practicing before you'd ever be exposed to situations I demonstrate today on these video tapes.

And my program costs far less than a hodgepodge collection of those "fighter-of-the-month" programs you see, each touted as better than the rest (does anyone still believe that garbage?). You could spend hundreds of dollars learning these totally unrelated movements (many demonstrated incorrectly both from a scientific and physiological standpoint) and, at best, be able to deal with a handful of the hundreds of ways an attacker might come at you.

But with my system you get it **all** -- **right now!** Not in a year or two when someone thinks your ready. There's nothing held back. And you get techniques carefully integrated together, each demonstrated using precisely correct form, and capable of handling any situation thrown at you. Techniques I guarantee can save your life 100% of the time -- possibly even the **very same day** you get them.

(please go to next page)

In this light, an investment in my system today may be the best investment you'll make at any time during the rest of your life.

If you still need a little help, here's something else I'll even do for you. I'll allow you to split your payment over several months (please see order form for details).

We're limiting the number of packages we sell at this price. So if you're at all interested in becoming as well trained as my U.S. Navy SEAL **SCARS-CFC** instructors, capable of defeating anyone threatening your life with a gun, knife or club, don't wait.

This introductory price IS the lowest price you will ever see for this **SCAR-HCS WEAPONS PACKAGE**.

Special Bonus #2

While the 6 full-length video tapes contain a lifetime of fighting information available nowhere else in the world, I want this offer to be so good, you'll literally run to your phone and order.

So I'm including as a second free bonus, my new video, **Body Weapons**.

Some cheap throw-away video like others give you? Guess again!

Many **HCS** customers commented that **HCS** did not start out basic enough, showing how to properly hold your hands, arms and legs, and then to use these 'body weapons' to hit key strike points on your assailant's body. Even though some of this information was in the **HCS** manual, they wanted more.

So we went back into the studio and produced this new full-length video.

In it, we expertly demonstrate how to properly form your hand to execute the finger poke (without breaking your finger), how to correctly execute the round circle strike, how to use the forearm as your own personal piece of pipe, and more.

In short, we demonstrate precisely how to set up and perform each individual move and action you need to execute the techniques seen on these new **SCAR-HCS WEAPONS PACKAGE** tapes.

Plus, we introduce our new **Peterson Attack Trainer**. This product allows us to demonstrate on video exactly what it's like to execute these moves and techniques -- in full speed and with FULL POWER!

It's a **must see** and a **must have**.

This video sells for \$59.95. But I'm including it **FREE** with this package.

So let's summarize this offer.

You get the complete **Hostile Control Systems** course, the **Edged & Impact Weapons** and **Firearms Disarmament & Use** advanced programs, plus the **Body Weapons** video. That's 7 fully-integrated videos plus written materials -- programs which individually sell today for

(please go to next page)

\$534.95. You get them all for only \$297, a very real savings of \$237.95 -- and the lowest price we'll ever offer this **PACKAGE**. But you must act now!

My Personal Guarantee

As with your original **HCS**, this **SCAR-HCS WEAPONS PACKAGE** comes with my full, 90-day money-back guarantee.

Try it out. Prove to yourself just how powerful these techniques really are. If you're not completely satisfied, just send it back. You'll receive a courteous refund of your entire \$297.

But as you may know, I always give you a stronger personal guarantee than anyone else. So, here it is.

Nothing like this **SCAR-HCS WEAPONS PACKAGE** has ever been offered before -- except to the U.S. Navy SEALs.

And after year's of first-hand use with the SEALs, I believe strongly that this system is so far beyond anything else available, I'm offering the same amazing guarantee I did with **HCS**:

Once you have thoroughly studied these video tapes and practiced the techniques, I guarantee no one will ever be able to defeat you in a life-threatening situation where any type of weapon is involved, and when you apply the techniques correctly.

If they do, I'll immediately refund your full purchase price, regardless of how long ago you bought this program.

No individual or company dares offer a guarantee like mine.

That's because no one has a system like mine -- refined and proven in combat for over 20 years, and installed as the only official U.S. Navy SEAL hand-to-weapon combat training.

Some Claim I Shouldn't Show Life-Threatening Techniques. Here's Why They're Wrong.

This **SCAR-HCS WEAPONS PACKAGE** is a devastating system. It had to be since it was developed to save military lives.

Yet some people want a more 'defensive' system (police especially make this mistake).

But here's why we can't and won't compromise:

1. A defensive system is a system based on fear -- and by now you understand 'fear' means you get hurt (and likely killed).
2. You must understand how each technique works so you can control what happens in a hostile situation.

In my system, you -- not your attacker -- are in total control. From disarming this person, to seriously disabling them, to killing them, if necessary.

If it's your life or his, you have but one choice.

(please go to next page)

3. You must understand 'killing' techniques even if you never intend to use them. You can't accidentally use an actual killing technique by mistake -- and then hope to undo the consequences! With guns and knives, there is no room for mistakes!

You want this system to save your life or the life of a friend or loved one in a hostile confrontation.

So, please, be prepared for its intensity. Don't be offended by the 'killing' movements I demonstrate.

Realize, one day they may just save your life!

You Must Act Now

As the success of my original **Hostile Control Systems** grows, more and more people try to take pot shots at me.

They keep feeding you one fighter after another -- this guy's 'secret' stuff, that guy's 'advanced' moves (by the way, there are no advanced techniques -- only people with advanced coordination skills using basic techniques).

A handful of these moves actually aren't bad. But even these only work 'some' of the time. Usually because the fighter happens to be bigger or more athletic or in better physical condition.

Aren't you tired of fighting programs which only work some of the time for the most physically gifted athlete?

That certainly doesn't describe me and probably not you either.

If the program you buy isn't scientifically tested and proven, or if your success is based on athleticism or size or conditioning, forget it.

You can't depend on it to save your life or the life of your friends or loved ones in a hostile situation 100% of the time!

Is anyone else guaranteeing their system works for you specifically? Do they guarantee it works 100% of the time -- without constant practice once you've learned it? Or that it's quick and easy to learn, requiring no athletic skills or conditioning?

Not a one of 'em!

That's why the SEALS chose my system over all the rest: Vunak, the Gracies, Cucci and the rest of the TRS 'fighter-of-the-month-club', all the martial arts, everyone.

They chose it for one reason -- because it's the only scientific system which uses natural moves and techniques, is quickly and easily learned yet permanently retained, and is totally undefeatable and 100% reproducible by any person, any where, any time!

Now my **SCAR-HCS WEAPONS PACKAGE** gives you this same capability.

(please go to next page)

At the end of this course you're not going to have questions about knife or gun fighting or about disarming someone using a club, pipe or stick against you. You're not going to have any questions about how to escape if a knife is held to your throat or about using any of these weapons yourself.

You'll know exactly which techniques work, why they work, and how to perform them.

All you need to do is pick up the phone right now while this is fresh in your mind, call 1-800-457-0330 and order your personal copy of my **SCAR-HCS WEAPONS PACKAGE**. You can call 24-hours a day, 7 days a week. Or, if you prefer, fill out the enclosed order form and fax or mail it to me today.

There's absolutely no risk on your part. You've got a full 90 days to review this revolutionary new course and prove to yourself it's everything I say it is -- far beyond anything you've ever seen before.

If you have any questions, call our office and talk with one of our trained instructors about this program. They're all former Navy SEAL trainers who live and breath this stuff every day. They'll patiently answer your toughest, most probing questions. You can reach them at 1-602-437-3143.
