

"Picture Two People, Locked In Mortal Combat, One Strangling The Other. Now, Imagine Yourself In This Scene And Tell Me... What Would You Do?"

(Hint: Whatever Your Answer, The Odds Are... It's Wrong!)"

Kick him in the groin." "Strike the arms or punch the solar plexus." "Grab the hands." "Stomp on his instep"

The list is always the same.

Unfortunately... each answer put your life at risk in the face of a life-or-death assault.

Why? Because invariably when Tim Larkin asks students this question at his *Target-Focus Training™* bootcamps...

No One—Not Even Trained Martial Artists—Sees Themselves As The One Doing The Choking

They're always the one being choked.

But think about it... couldn't this have been the scenario?

You are surprised by two attackers. You've completely disabled the first and now have control of the second and are about to put him totally out of commission...

Possible? Of course. It's just that no one sees it this way. It's human nature. We shy from victory, from domination. It's the way most of us are built... unless you're a criminal...

Here's the problem: A thug comes up, places a knife to your throat and demands your wallet. Taking him at his word you give him the wallet. He then proceeds to stab you repeatedly leaving you in a pool of your own blood, astonished you've been stabbed.

What went wrong? Just this. You ASSUMED he only wanted the wallet. After all, why would anyone stab someone over a few measly bucks? YOU certainly wouldn't do that if you were robbing someone (by the way... when WAS the last time you robbed someone and put a knife to their throat?).

You see, that IS the problem...

You've Just Transferred Your Own Moral Code To A Sociopathic Killer... And With It, Quite Possibly, Your Life.

See, nothing bothers him. He's certainly not bound by your morals. With a total disregard for society and it's rules, he has no regret whatsoever in cramming a blade into your gut... if that's what it takes to get what he wants.

You stroll around thinking 12 years of martial arts training or that 6-week self-defense course or the latest flavor-of-the-month fighting video gives you the edge you need against someone like this.

Wake up!

You are hopelessly training techniques (then praying they work) against someone who never "trained" for you. How many criminals in federal pens spent years sweating through JKD workouts before committing their crime? How many are Jujitsu experts?

None. They excel at just one thing: doin' it. No training, no practice, no techniques. And these criminals certainly follow no 'rules'. So why squander years fooling yourself with something that only works "if everyone plays by the rules"?

These are the facts: 98% of us, caught in an unavoidable violent attack (even those with years of training), would never consider doing "whatever it takes" to survive — like gouging our attacker's eyes — even if they were the only targets available, and... even if it was the only means of saving our own life.

That's why TFT teaches both mind and body to act in unison, training you for the real threat in your

life... criminal violence.

It shows you how to deal with the ultra violence of a life-or-death confrontation (understand it's very easy to ramp this down to fit a lesser situation but it's impossible to ramp up to a "killing-set" if you've never trained for it. By the way, is this you?).

Make no mistake... Larkin doesn't advocate violence. TFT just de-mystifies it. He's often quoted...

"Violence Is Rarely The Answer. But When It Is... It's The Only Answer."

Look... others in BlackBelt try to impress you with how bad they are, their accomplishments in the "hidden world" you aren't privy to, their guru status.

TFT isn't about that. **It's not about an individual, a personality... or a guru.**

It's about a system... one focused totally on you!

Make no bones about it: Larkin's track record is impressive. He's currently training units from the top echelons of federal law enforcement and military special operations groups. It's not surprising since he comes from that world and is well known there. But since everyone in BlackBelt tries to claim this you'll rarely hear him talking about it.

He's an awesome communicator, fabulous trainer, and amazingly approachable for someone with his abilities and credentials. And he's trained 100's of CEOs and others in high-risk positions around the world — all very real people.

But why is this so important?

Why is TFT being sought out in all these other arenas?

Because it works! Because you "get it" immediately... as soon as you experience it. There's no waiting. It's usable instantly... and it stays with you forever, even if you never practice it again.

Take fear. Others say they will make you 'fearless'. But it's a total lie! **Fear is hardwired into our brains.** TFT instead quickly and easily reprograms your muscle "software" enabling you to take deliberate action... despite your fear (by the way it's not magic, you've got the ability inside you right now).

Here's what TFT is about: the key to the system lies in the fact there are two... and only two... overriding principles that determine the outcome of any physical confrontation. Combine these with three supporting methodologies that form the foundation of every fighting system on the planet and you have a complete system for handling any violent confrontation. With this information you can look at anything that's out there... including your own training... and know immediately if it's worth keeping.

"It was the most effective five days of training in hand-to-hand and hand-to-weapon that I and everyone else had ever experienced." Brian (last name withheld), US Border Patrol

Larkin just got back from talking to over 600 CEO's in Europe. These folks are eating his stuff up because **TFT** principles and methodology are as effective in the 'combative' world of business as they are in a truly lethal fight, and for the exact same reason... **RESULTS.**

What really excites Larkin is the fact that if these people can get this much from his material, imagine how much more someone like you can learn... a dedicated reader of BlackBelt magazine who is really into finding and applying a system that is quickly

learned and deadly effective.

If all these other folks are seeking him out, shouldn't you be too?

Look, Larkin is swamped and realizes he can't begin to reach everyone. While he'd love to have you as a member of his organization and to take part in his live training, he realistically understands few will be able to do this. Bootcamps run \$2,000.00 while international events start at \$10,000.00. And personal training for small 2- to 4-person sessions is \$20,000.00 and more.

That's why he's created a special Guide called *The Two Key Principles Used To Win Every War, Battle And Streetfight... And How You Can Exploit Their Devastating Power Today.*

Not some sales letter in disguise, this is truly a game for you to take at least a step towards learning the basics of **TFT** and applying its principles today.

In the Guide, Larkin covers things like:

- **The secret to success in any confrontation or fight. Understand this principle... and you win. Without it... you lose. It's as simple as that.**
- Why it's a huge mistake to train as if you can predict your attacker's next move... *even though everyone keeps trying to do it.*
- **Why focusing on a technique or methodology hands the sociopathic criminal an overwhelming advantage... each and every time.**
- Why defeating an assailant has nothing to do with your size, strength, speed, sex, stamina or athleticism... and *nothing whatsoever to do with years of practice or difficult movements.*

"I've ordered video's from names like (withheld) and respect them and their ideas. But you have given me a logical system that I can train and do despite an artificial hip and other chronic injuries as a result of 33½ yrs of firefighting." John Carmody, Norfolk, VA

- **Why you can't learn a hodgepodge collection of lethal techniques and expect to recall even one of them (let alone the one you need) in a life-or-death struggle.**

If you've spent years training techniques but still aren't sure of what might happen face-to-face with an assailant, if you can't imagine why physical skills are not critical to success in a determined sociopathic attack, if you long ago realized those silly fighter-of-the-month techniques weren't the answer to anything, then you owe it to yourself to get his Guide.

Here is how you can get one: Larkin is distributing 250 of these Guides. You may request one Free copy by calling toll-free **(888) 267-2978** and leaving your name and address on his voicemail. He'll have the Guide sent to you the very next day. Since it's voicemail you can call 24-hours a day, 7 days a week. Additional copies of the Guide are just \$9 plus shipping. But again, he'll send you one copy FREE.

Look. A lot of folks will blow off this offer as just another in the endless stream of secretive, technique-based, guru-led programs. Don't make that mistake. It doesn't cost you even a cent to prove to yourself the validity of what you've just read.

You've read this far and know this makes sense. **Call (888) 267-2978** and request your **FREE Guide now** while they're still available.
